Peterite Maths & Science Society

September, 2018 - October, 2020

Senior Member

Peterite ICT Club

January, 2016 - October, 2020

Senior Aviator

Peterite Aviation Club

January, 2009 - December, 2018

Athlete (Long Jump, Triple Jump)

Track & Field, St. Peter's College

January, 2019 - March, 2020

Rugby (Right Winger)

U19 Inter House, St. Peter's College

Katuwawalage Don Sachin Akash

Software Engineer

Software Engineer with experience in cloud-native applications, integration technologies, and backend engineering. Skilled in developing platform capabilities, developer tooling, APIs, and integration solutions, with hands-on experience in the Ballerina ecosystem and modern software development practices. Passionate about building scalable, reliable systems, solving complex technical challenges, and delivering high-quality software products that create meaningful business value.

Experience

February, 2026 - Present

Co-Founder & Director, Evantra Labs (Pvt) Ltd.

- Co-founded and lead a software solutions company specializing in web, mobile, and digital transformation projects.
- Manage company strategy, client relationships, and end-to-end software project delivery from concept to deployment.
- Design and oversee scalable software solutions, ensuring quality, performance, and user-focused experiences.
- Drive business growth through proposal development, project estimation, stakeholder management, and service innovation.
- Deliver tailored digital solutions that help businesses strengthen their online presence, streamline operations, and improve customer engagement. ([Evantra Labs Website](#))

October, 2024 - December, 2025

Software Engineer, WSO2 LLC.

- Designed and delivered features across the Ballerina platform, including HTTP, OpenAPI, JSON Schema, FTP, and integration connectors, enhancing platform capabilities and developer productivity.
- Improved the reliability and usability of Ballerina tooling by resolving complex code generation, testing, and release issues, while contributing to developer experience and CLI enhancements.
- Led connector quality initiatives, including the revalidation and regeneration of the Alfresco connector, comprehensive testing, and development of practical integration examples.
- Contributed to documentation, static code analysis, and standard library improvements, helping maintain code quality and engineering best practices across multiple modules.
- Mentored intern engineers on OpenAPI and connector development projects, providing technical guidance, debugging support, and code reviews.
- Enhanced WSO2 Integration Platform's product experience through UI improvements, onboarding documentation, integration testing, and deployment guidance.

January, 2009 - December, 2014

Badminton

Bambarandage Badminton Club

Skills & Knowledge

- Java
- Ballerina
- HTML
- CSS
- JavaScript
- SQL
- NoSQL
- MySQL
- MS SQL
- MongoDB
- Wamp
- XAMPP
- XML
- JSON
- AJAX
- React JS / React TS
- Node JS
- Tailwind
- REST API
- OpenAPI
- OOP
- Data Structures & Algorithms
- Microservices
- Azure File Share
- Project Management (PRINCE 2)
- Git / GitHub
- Postman
- Swagger
- JMeter
- VS Code
- IntelliJ
- NetBeans
- Eclipse
- Figma
- Dreamweaver
- Illustrator
- After Effects
- Premiere Pro
- Wordpress
- Odo
- Wix

August, 2023 - January, 2024

Software Engineer Intern, WSO2 LLC.

- Worked in Ballerina OpenAPI Tool with the Ballerina Library team.
- Designed and integrated constraint and hypermedia (HATEOAS) support into the Ballerina OpenAPI Tool. This enhancement ensured that Ballerina constraints and HATEOAS links were accurately reflected in the generated OpenAPI Specification using a Ballerina service [Ballerina Service to OAS], improving API documentation and the developer experience.
- Worked with the Ballerina OpenAPI team to restructure the Ballerina to OpenAPI codebase, organizing it into a new component-based structure, enhancing the tool's modularity and maintainability.
- Collaborated with internal teams and stakeholders to refine the Ballerina to OpenAPI generation process, ensuring seamless integration with existing development workflows and tools.

February, 2023 - January, 2024

Student Ambassador, SLIIT City UNI - Part Time

- Represented SLIIT City UNI at prominent education festivals, including 'Future Minds' and other regional education events, promoting the university's programs and facilities.
- Served as the Student Ambassador during visits by the British Computer Society (BCS) facilitating interactions and showcasing the university's commitment to excellence in computer science education.
- Acted as an Ambassador during Open Days, providing comprehensive information to the public about the various academic programs, campus life, and opportunities.
- Participated in university promotional activities, including photoshoots and video shoots, contributing to the creation of marketing materials that highlight the university's dynamic student life and academic environment.
- Organized and coordinated various cultural and other events at the university, contributing to the vibrant campus community and enhancing student engagement.

2021 - 2023

Higher Diploma in IT

SLIIT City UNI

CGPA: 3.94/4.0

Year 1 Semester 1 GPA: 3.84

Year 1 Semester 2 GPA: 3.95

Year 2 Semester 1 GPA: 3.94

Year 2 Semester 2 GPA: 4.0

Highest GPA of the batch for all four semesters (Dean's List Award)

2018 - 2020

GCE Advanced Level - Physical Science Stream Including ICT

St. Peter's College, Colombo 04

2007 - 2017

GCE Ordinary Level with ICT

St. Peter's College, Colombo 04

Projects

- **Sheree's Cakes**: Full-featured e-commerce platform for a cake business, enabling online ordering, secure payments, and custom cake requests. (ReactTS, Tailwind CSS, Resend API, VS Code, JavaScript, REST API, Sampath Bank IPG)
- **Winchild**: Responsive informational website for a daycare & pre-school, showcasing its programs, facilities, annual events, gallery, and parent inquiry services. (ReactTS, Tailwind CSS, Resend API, VS Code, TypeScript, Git/GitHub, Vercel)
- **Capital Bridge**: Corporate website for a microfinance company, showcasing financial services and enabling customer inquiries through an integrated contact management system. (ReactTS, Tailwind CSS, Resend API, VS Code, JavaScript, REST API)
- **Evantra Labs**: Modern corporate website for a software development company, showcasing its services, projects, expertise, and enabling potential clients to submit project inquiries. (ReactJS, Tailwind CSS, Resend API, VS Code, JavaScript, Git/GitHub, Vercel)
- **nutri**: Responsive business website for a food company, showcasing products and facilitating customer orders through integrated social media and messaging channels. (ReactJS, CSS, VS Code, JavaScript)
- **iServeSL**: Centralised web application which gives citizens a single point of contact to access a range of government services online from anywhere anytime. (MERN Stack, Ballerina, Python, Tailwind CSS, Rasa, NLTK, Tensorflow, Swagger, VS Code)
- **SolarCast**: Weather Prediction Web Application to Optimize Solar Power Plants (MERN Stack, Tailwind CSS, Future Weather API, Swagger, VS Code, Selenium)
- **Project Viking**: A Treasure Hunting Platformer Game (Java, MySQL, Eclipse, Tomato API)
- **Stock Management System for Vino Engineers (Pvt) Ltd. Nawala.** (Java, MySQL)
- **Web Based Student Management System.** (HTML, CSS, JavaScript, JSON, AJAX, REST API, Postman)
- **TimeTicker**: Business Process Management System for Watch Sales & Repairing Shop. (Java, MySQL)
- **Security Vulnerability Assessment for PDK Holdings (Pvt) Ltd, a franchised subsidiary of John Keells.**
